

# EXTRACTIVE ECONOMY

## WORLDVIEW

- growth of growth
- accumulation = GOOD!
- competition is good!
- ownership means no responsibility
- exploitation is natural
- work is about producing
- you are your job
- philanthropy is based on white guilt + white supremacy
- business cycle is natural
- success is measured by our accumulation

### RESOURCES + WORK

- control & ownership over DNA
- supply + demand
- destruction of nature
- cultural life can be impoverished

### WORK

- slavery
- care is not work
- automation of work (bots over people)
- exploitation
- wage labor

# CONCERN FOR COMMUNITIES

### PURPOSE

- people at odds w/ each other
- maintain control over people & wealth
- control, concentration of & enclosure of wealth

### GOVERNANCE

- feudalism
- nationalism
- slavery
- genocide
- dispossession of land
- war

## DIVEST POWER

from their

## INVEST IN POWER

OUR

## WORLDVIEW

- success = needs are met
- understanding & addressing journey of colonization
- REPARATIONS to account for slavery
- there is no wealth disparity
- sustainability! interdependence
- human, natural, life health is what matters
- collective is more important

### RESOURCES + WORK

- care for human & natural world
- interdependence of all life
- regeneration: of soil, land, trees

### WORK

- opportunities for everyone to reach full potential
- minimum + maximum wage
- infrastructure of human well being
- democratically organized
- reparations: access to wealth from past work

### PURPOSE

- fair affordability for all!
- common good / greater good
- there is enough for everyone
- needs & health for people, collective, & earth matters most
- means to a better society

### GOVERNANCE

- review, revise taxes!
- autonomy & community control!
- ability to participate regardless of wealth
- decisions are made for the greater good
- mass/collective participation
